

Forté Pressure Care Stretcher Support Surfaces deliver excellent patient comfort and uncompromised care. Utilising premium quality foam and material selected for their performance, the Forté Stretcher Support Surfaces provide consistent care in demanding medical environments and are customizable to suit any patient stretcher configuration, size and function. Forté Stretcher mattresses are specifically designed to provide sustained support and pressure injury prevention for a significantly longer period of time than the typical stretcher mattress. This is a benefit for situations where patients are kept on a stretcher waiting for a bed to become available for a longer period of time than anticipated.

Icon IS21 Dual Core Medium Risk Pressure Care Stretcher Mattress

The Icon IS21 Medical Stretcher Support Surface compliments Medical Stretchers for patient comfort and increased pressure injury prevention.

A dual-tiered, premium quality foam core provides immersion and redistribution of pressure protecting patients that may lay on the Stretcher for prolonged periods of time.

Custom made to suit any brand or type of Stretcher, the Icon IS21 is an exceptional blend of value, care, and longevity.

CODE	DIMENSIONS (MM)
IS21000	1980x680x100
Customisable to suit any model and function of bed, stretcher or trolley	
THERAPEUTIC WEIGHT RANGE*	150KG
APPLICATIONS	✓ PRE-ADMISSION CLINICS ✓ THEATRES ✓ EMERGENCY DEPARTMENTS ✓ GENERAL PATIENT STRETCHERS
WARRANTY**	5-YEAR FOAM CORE WARRANTY 4-YEAR COVER WARRANTY
STANDARD COVER TYPE	DOUBLE COATED PREMIFLEX W/NON-SLIP PATCHES ON BASE

Features

DUAL LAYER, GRADED CORE

- ✓ Graded for immersion and support
- ✓ High performance, premium quality foam
- ✓ Anti-microbial treatment applied to foam maximises longevity and core micro-climate

AIROFORM MEMORY MEDIUM IMMERSION INTERFACE LAYER

- ✓ High Temperature Stability to deliver consistent immersion, performance and comfort
- ✓ Maximises Patient contact with Support Surfaces Providing Pressure Redistribution
- ✓ Alleviates localised pressure points
- ✓ Depth calibrated to maximise functionality and patient mobility
- ✓ Visco-elastic/Memory Foam cell structure provides low-shear surface
- ✓ Firmness: Medium

PREMIUM FIRM FOUNDATION LAYER

- ✓ Provides protection against 'bottoming-out' during transfer, repositioning and whilst in the inclined/fowler position
- ✓ Provides exceptional comfort, support for repositioning and patient care

Icon IS22 5-Layered Medium Risk Pressure Care Stretcher Mattress

The Icon IS22 5-Layer Medical Stretcher Support Surface is an advanced variation of the Icon IS23 Stretcher Mattress. The 5-Layered High-Performance Core provides the ultimate balance of performance, comfort and Pressure Injury Prevention within demanding acute environments.

The specialised pressure relief core structure provides protection to patients at risk of injury without compromising support in crucial areas. Integrated Strengthened Sides offer greater lateral stability for increased safety.

Features

AIROFORM RESPONSE IMMERSION INTERFACE LAYER

- ✓ A particularly responsive Ultra-High Performance elastic foam designed to optimise patient mobility, function and enhance repositioning
- ✓ Open-cell structure provides low-shear surface, good pressure redistribution, effective immersion, enhanced breathability and superior heat dissipation
- ✓ Alleviates localised pressure points
- ✓ Enhances contact with patient for distribution of interface pressure
- ✓ High temperature stability to deliver consistent immersion, performance and comfort
- ✓ Provides exceptional comfort
- ✓ Greatly reduces risk of impression marks on patient skin
- ✓ Firmness: Medium

AIROFORM MEMORY MEDIUM SECONDARY IMMERSION LAYER

- ✓ High Temperature Stability to deliver consistent immersion, performance and comfort
- ✓ Maximises Patient contact with Support Surfaces Providing Pressure Redistribution
- ✓ Alleviates localised pressure points
- ✓ Depth calibrated to maximise functionality and patient mobility
- ✓ Visco-elastic/Memory Foam cell structure provides low-shear surface
- ✓ Firmness: Medium

PREMIUM POSTURAL SUPPORT MID-LAYERS

- ✓ Graded for optimal comfort and support
- ✓ Enhances immersion
- ✓ Delivers excellent core stability

PREMIUM FIRM FOUNDATION LAYER

- ✓ Provides protection against 'bottoming-out' during transfer, repositioning and whilst in the inclined/fowler position
- ✓ Provides exceptional comfort, support for repositioning and patient care

FIRM STRENGTHENED SIDES

- ✓ Increase lateral stability of support surface
- ✓ Improves patient safety and encourages central patient positioning
- ✓ Make patient transfers easier
- ✓ Enables ease of primary patient care

Icon IS23 4-Layered Medium Risk Pressure Care Stretcher Mattress

The Icon IS23 Medical Stretcher Support Surface provides outstanding performance, comfort and pressure injury risk mitigation within demanding acute environments.

The unique 4-Layered high-performance core offers excellent immersion together with greater anatomical support for patients weighing up to 300kg.

The Icon IS23 is custom made to suit any brand or type of Stretcher and is an excellent addition for any acute environment looking to reduce risk of Pressure Injury incidence in conjunction with patient stretchers.
